

AI PREDICT

# Feasibility Assessment

Explore and validate your machine learning project ideas with our comprehensive, data-driven analysis.

## Validate. Refine. Move Forward.

Have a specific use for machine learning you're ready to explore? An HBS Feasibility Assessment will help you be sure that you have the right foundation in place to bring the solution to life—or discover the gaps we'll need to close to make it possible.

In the AI Predict Feasibility Assessment, we will:

- **Initiate with Insight:** We'll work with you to deeply understand your business, define specific AI goals, and gather the essential data, ensuring all elements are aligned for success
- **Conduct Extensive Analysis:** Our team of AI experts evaluates the technical and operational feasibility of your machine learning project, pinpointing potential challenges and offering strategic solutions
- **Provide Actionable Documentation:** You will receive detailed findings with clear next steps and timelines for implementation so you can confidently move forward

- **Duration:** 4-6 weeks.
- **Conclusive Results:** You will have definitive answers to your best AI project questions and concerns.
- **Advance to Implementation:** Once you have the results and models, we'll work with you to move on to the production stage.

Ready to move your AI project from idea to reality?
