

Migrate to Azure with confidence

Maximize your Windows Server value with a trusted Microsoft partner.

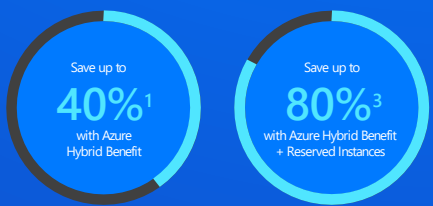

We can help you navigate the complexities of cloud adoption, optimizing your investments and reducing implementation risks to unlock the full value and security capabilities of Azure. Our services include:

- Assessing your infrastructure to understand your existing landscape.
- Collaborating with you to develop a cloud adoption strategy.
- Implementing and supporting your cloud adoption plan.

Bring existing Windows Server and SQL Server licenses to Azure

With Azure Hybrid Benefit, you can maximize your existing investments and transition to the cloud at your own pace.

Reduce risk and increase savings across cloud and hybrid environments. Migrate to Azure and get **3 years of free extended security updates** for your 2012/R2 workloads (end of support was 10/10/2023).

Get industry-leading price performance with SQL on Windows Server on Azure

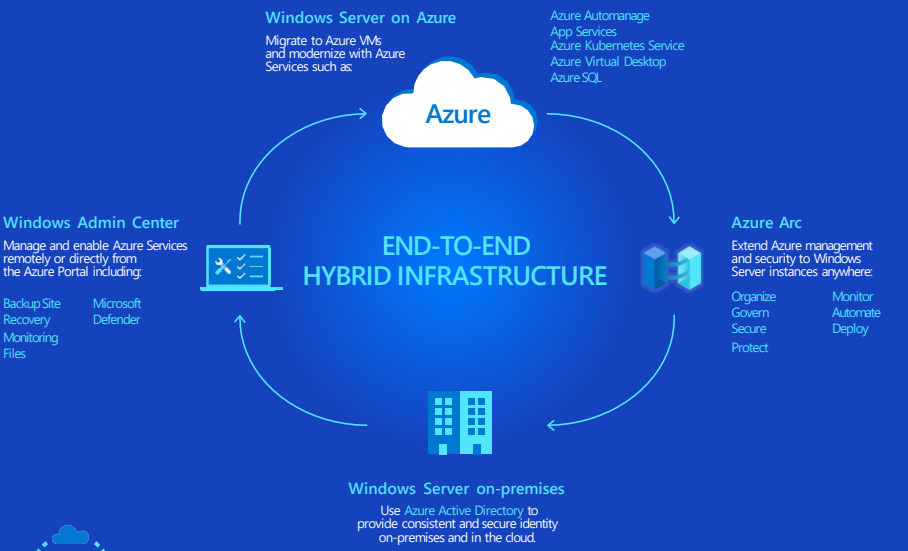

Protect apps, data, and IT workloads in Azure

Windows Server offers comprehensive security with built-in protection in Windows Server VMs and Microsoft Defender for Cloud

- 65 trillion threat signals analyzed daily
- 8,500 security experts
- \$1 billion per year investment in security

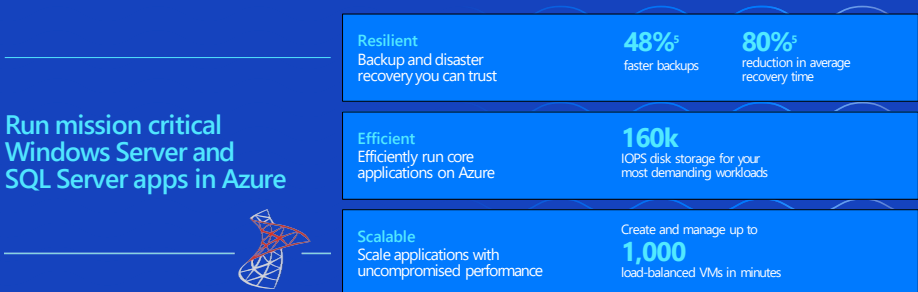

Take advantage of cloud innovations for on-premises workloads

Modernize your workloads with new and improved features on Azure

- Use Azure Automanage to simplify IT management with optimized, automated operations.
- Manage Windows Servers with Windows Admin Center straight from the Azure Portal.
- Enable secure remote work by deploying virtual desktops and apps quickly and easily with Azure Virtual Desktop.
- Gain flexibility and consistency with native .NET support in App Service and Azure Kubernetes Service.

Windows Server on Azure is:

Run mission critical Windows Server and SQL Server apps in Azure

We can help you plan and implement your cloud migration. Let's connect to start building your migration plan to Azure today!
