

Staff Augmentation

Skilled network engineering support to supplement your team—on your schedule.

Optimize. Adapt. Keep your IT infrastructure ready for what's next.

Your organization runs on technology. As innovations advance, business priorities evolve and challenges arise, your technology needs to keep up—whether you have the in-house talent to support it or not. With IT staff augmentation by HBS, you have a simple, reliable way to **add skilled IT engineering talent to your team**, when you need it, without the cost or commitment of a full-time hire.

How HBS IT Staff Augmentation Works

You'll get regular, dedicated access to our highly trained team of IT specialists. Through recurring consulting engagements, we'll help you ensure that your IT environment remains optimized, adaptable, and ready for what's next—all on a schedule that works for you .

HBS staff augmentation will help you:

- Focus on strategic priorities without distractions
- Accelerate time-to-market for projects and initiatives
- Scale IT resources up or down based on business demand
- Access specialized expertise without the expense of full-time staff—paying for only the skills and services you need

Our Staff Augmentation Services

Strategic IT Planning

We'll consult with you to develop a plan that aligns technology with your business objectives.

System Reviews

Our team will conduct reviews of your IT environment to optimize performance, ensure compliance, and maintain reliability.

Continuous Improvement

You'll have a true partner, bringing the skill and expertise to help you drive innovation with updated processes and technology roadmaps.

Advisory Services

You'll get expert guidance every step of the way, proactively bringing you insights from industry trends tailored to your specific needs.

The right solutions. At the right time.

When to Consider Staff Augmentation

- **Employee Turnover:** Fill skill gaps and maintain continuity when team members leave.
- **Business Growth:** Scale IT capabilities to meet evolving demands and fill critical roles.
- **Local Technology Management:** Optimize networking, infrastructure, cybersecurity, and more with the right resource at the right time.
- **Need for Specialized and Advanced Skill Sets:** Gain advanced expertise in specialized areas you don't have in house. Bring in exactly the technology skills you need for critical initiatives. Technology Strategy: Stay ahead with proactive planning and regular technology assessments.
- **Peak Workloads:** Manage surges in demand and ensure IT projects stay on track. Take on more work without overburdening internal teams.
- **Testing New Technologies:** Leverage diverse expertise to evaluate and implement new processes and tools efficiently.

What HBS IT Staff Augmentation Offers

- **Flexible Cadence:** Weekly, bi-monthly, monthly, or custom schedules to fit your needs.
- **Tailored Expertise:** Access specialists in areas such as architecture, networking, cloud, infrastructure, and cybersecurity.
- **Adaptable Talent Pool:** The right resource when you need it, without long-term overhead.
- **Proactive Support:** Identify and address issues before they become problems.
- **Collaborative Growth:** Align our services with your long-term goals and business strategy

We adapt to your schedule to ensure our services integrate seamlessly into your operations. Whether you need weekly troubleshooting, bi-monthly growth management, or monthly strategy sessions, HBS delivers the right solutions at the right time.

Get the IT engineering support you need. On your schedule.
